GUIDANCE FOR AUTHORS

Aims and Scope *Biodiversitas*, *Journal of Biological Diversity* or *Biodiversitas* encourages submission of manuscripts dealing with all aspects of biodiversity, including plants, animals, and microbes at the level of the gene, species, and ecosystem. Ethnobiology papers are also considered.

Article types The journal seeks original full-length: (i) **Research papers**, (ii) **Reviews**, and (iii) **Short communications**. Original research manuscripts are limited to 8,000 words (including tables and figures) or proportional to articles in this publication number. Review articles are also limited to 8,000 words, while Short communications should be less than 2,500 words, except for pre-study.

Submission: The journal only accepts online submissions through the open journal system (<https://smujo.id/biodiv/about/submissions>) or, for login problems, email the editors at unsjournals@gmail.com (or editors@smujo.id). Submitted manuscripts should be the original works of the author(s). Please ensure that the manuscript is submitted using the template, which can be found at (<https://biodiversitas.mipa.uns.ac.id/D/template.doc>). The manuscript must be accompanied by a cover letter containing the article title, the first name and last name of all the authors, and a paragraph describing the claimed novelty of the findings versus current knowledge. Please also provide a list of five potential reviewers in your cover letter. They should come from outside your institution and better from three different countries. Submission of a manuscript implies the submitted work has not been published (except as part of a thesis or report, or abstract) and is not being considered for publication elsewhere. When a group writes a manuscript, all authors should read and approve the final version of the submitted manuscript and its revision; and agree on the submission of manuscripts for this journal. All authors should have made substantial contributions to the concept and design of the research, acquisition of the data and its analysis, drafting the manuscript, and correcting the revision. All authors must be responsible for the work's quality, accuracy, and ethics.

Ethics Author(s) must be obedient to the law and/or ethics in treating the object of research and pay attention to the legality of material sources and intellectual property rights.

Copyright If the manuscript is accepted for publication, the author(s) still hold the copyright and retain publishing rights without restrictions. For the new invention, authors must manage its patent before publication.

Open Access The journal is committed to free-open access that does not charge readers or their institutions for access. Readers are entitled to read, download, copy, distribute, print, search, or link to the full texts of articles, as long as not for commercial purposes. The license type is CC-BY-NC-SA.

Acceptance Only articles written in US English are accepted for publication. Manuscripts will be reviewed by editors and invited reviewers (double-blind review) according to their disciplines. Authors will generally be notified of acceptance, rejection, or need for revision within 1 to 2 months of receipt. Manuscripts will be rejected if the content does not align with the journal scope, does not meet the standard quality, is in an inappropriate format, or contains complicated grammar, dishonesty (i.e., plagiarism, duplicate publications, fabrication of data, citations manipulation, etc.), or ignoring correspondence in three months. The primary criteria for publication are scientific quality and significance. **Uncorrected proofs** will be sent to the corresponding author by system or email as .doc or .docx files for checking and correcting typographical errors. The corrected proofs should be returned in 7 days to avoid publication delays. The accepted papers will be published online in chronological order at any time but printed at the end of each month.

A charge Authors are charged USD 320 (IDR 4,500,000). Additional charges may be billed for language improvement, USD 75-150 (IDR 1,000,000-2,000,000). **Reprints** The sample journal reprint is only available by special request. Additional copies may be purchased when ordering by email and sending back the uncorrected proofs.

Manuscript preparation Manuscript is typed on A4 (210x297 mm²) paper size, in a single column, single space, 10-point (10 pt) Times New Roman font. The margin text is 3 cm from the top, 2 cm from the bottom, and 1.8 cm from the left and right. Smaller lettering sizes can be applied in presenting tables and figures (9 pt). Word processing program or additional software can be used; however, it must be PC compatible, use the template, and be Microsoft Word based (.doc or .rtf; not .docx). **Scientific names** of species (incl. subspecies, variety, etc.) should be written in italics, except in italicized sentences. Scientific names (genus, species, author) and cultivar or strain should be mentioned completely for the first time mentioning it in the body text, especially for taxonomic manuscripts. The genus name can be shortened after the first mention, except in early sentences, or where this may generate confusion; name of the author can be eliminated after the first mention. For example, *Rhizopus oryzae* L. UICC 524 can be written hereinafter as *R. oryzae* UICC 524. Using trivial names should be avoided. **Biochemical and chemical nomenclature** should follow the order of the IUPAC-IUB. For DNA sequences, it is better to use Courier New font. Standard chemical abbreviations can be applied for common and clear used, for example, completely written butilic hydroxyl toluene (BHT) to be BHT hereinafter. **Metric measurements** should use IS denominations, and other systems should use equivalent values with the denomination of IS mentioned first. A dot should not follow abbreviations like g, mg, mL, etc. Minus index (m⁻², L⁻¹, h⁻¹) suggested being used, except in things like "per-plant" or "per-plot." **Mathematical equations** can be written down in one column with text; in that case, they can be written separately. **Numbers** one to ten are written in words, except if it relates to measurement, while values above them are written in number, except in early sentences. The fraction should be expressed in decimal. In the text, it should be used "%" rather than "percent." Avoid expressing ideas with complicated sentences and verbiage/phrasing, and use efficient and effective sentences.

The title of the article should be written in compact, clear, and informative

sentence, preferably not more than 20 words. Name of author(s) should be completely written, especially for the first and the last name. **Name and institution** address should also be completely written with street name and number (location), postal code, telephone number, facsimile number, and email address. We choose local names in Bahasa Indonesia for universities in Indonesia. The mention of "strata" program, should be avoided. Manuscript written by a group, author for correspondence along with address is required (marked with "¶"). **The title page** (first page) should include title of the article, full name(s), institution(s) and address(es) of the author(s); the corresponding authors detailed postage and e-mail addresses (P), and phone and fax numbers (O).

Abstract A concise abstract is required (about 200 words). The abstract should be informative and state briefly the aim of the research, the principal results and major conclusions. An abstract is often presented separately from the article, thus it must be able to stand alone (completely self-explanatory). References should not be cited, but if essential, then cite the author(s) and year(s). Abbreviations should be avoided, but if essential, they must be defined at their first mention. **Keywords** are about five words, covering scientific and local name (if any), research themes, and special methods used; and sorted from A to Z. **Abbreviations** (if any): All important abbreviations must be defined at their first mention there. **Running title** is about five words.

Introduction is about 600 words, covering the aims of the research and provide an adequate background, avoiding a detailed literature survey or a summary of the results. **Materials and Methods** should emphasize on the procedures and data analysis. **Results and Discussion** should be written as a series of connecting sentences, however, for a manuscript with long discussion should be divided into subtitles. Thorough discussion represents the causal effect mainly explains why and how the results of the research were taken place, and do not only re-express the mentioned results in the form of sentences. **Concluding** sentence should be given at the end of the discussion. **Acknowledgements** are expressed in a brief; all sources of institutional, private and corporate financial support for the work must be fully acknowledged, and any potential conflicts of interest are noted.

Figures and Tables of a maximum of three pages should be clearly presented. The title of a picture is written down below the picture, while the title of a table is written above the table. Colored figures can only be accepted if the information in the manuscript can lose without those images; the chart is preferred to use black and white images. The author could consign any picture or photo for the front cover, although it does not print in the manuscript. All images property of others should be mentioned the source. Author is suggested referring to Wikipedia for international boundaries and Google Earth for satellite imagery. If not specifically mentioned, it is assumed to refer to these sources. **There is no appendix**, all data or data analysis is incorporated into Results and Discussions. For broad data, it can be displayed on the website as a supplement.

References Preferably 80% of it comes from scientific journals published in the last 10 years. In the text, give the author names followed by the year of publication and arrange from oldest to newest and from A to Z; in citing an article written by two authors, both of them should be mentioned; however, for three and more authors only the first author is mentioned followed by et al. For example, Saharjo and Nurhayati (2006) or (Boonkerd 2003a, b, c; Sugiyarto 2004; El-Bana and Nijs 2005; Balagadde et al. 2008; Webb et al. 2008). Extent citation should be avoided, as shown with the word "cit." Reference to unpublished data and personal communication should not appear in the list but should be cited in the text only (e.g., Rifai MA 2007, pers. com. (personal communication); Setyawan AD 2007, unpublished data). In the reference list, the references should be listed in alphabetical order. Names of journals should be abbreviated. Always use the standard abbreviation of a journal's name according to the **ISSN List of Title Word Abbreviations** (www.issn.org/2-22661-LTWA-online.php). Please include DOI links for journal papers. The following examples are for guidance.

Journal:

Saharjo BH, Nurhayati AD. 2006. Domination and composition structure change at hemic peat natural regeneration following burning: a case study in Pelalawan, Riau Province. *Biodiversitas* 7: 154-158. DOI: 10.13057/biodiv/d070213.

The usage of "et al." in long author lists will also be accepted:

Smith J, Jones M Jr, Houghton L et al. 1999. Future of health insurance. *N Engl J Med* 965: 325-329. DOI: 10.10007/s002149800025.

Antibacterial activity of mangrove plant extract of <i>Rhizophora apiculata</i> in inhibiting the growth of various strains of <i>Aeromonas hydrophila</i>	4803-4810
DINI SISWANI MULIA, SUCI DWI RAHAYU, AMAN SUYADI, IKHSAN MUJAHID, ALIM ISNANSETYO	
Genetic characterization of superior durian (<i>Durio zibethinus</i> L.) accessions in Batang District, Central Java, Indonesia based on ISSR markers	4811-4819
MUHAMMAD ISBAT AMRULLAH, ENNI SUWARSU RAHAYU, ELING PUWANTOYO, RIA IKA MAHARANI, SOLICHIN, SRIYADI, TRI YANUAR HADIPRASETYA, AMIN RETNONINGSIH	
Phytotelmata accounts for <i>Aedes</i> breeding places in Mantup Sub-district, Lamongan District, Indonesia	4820-4828
SHIFA FAUZIYAH, SAUDI FITRI SUSANTI, HARIYONO HARIYONO, VERA FAZIRRAH, ANIK EKO NOVITASARI, NUR FADHILAH, TEGUH HARI SUCIPTO, SIN WAR NAW	
Efficacy of bio-pesticide <i>Lecanicillium lecanii</i> against soybean-sucking bugs <i>Riptortus linearis</i> during field application	4829-4836
YAYUK MULYATI, SITI ZUBAIDAH, YUSMANI PRAYOGO	
Short Communication: The biodiversity of aquatic organisms in Anak Laut Lake, Aceh Singkil District, Indonesia	4837-4844
AHMAD MUHTADI, RUSDI LEIDONALD, OKTI YOLANDA, RUHHIYAH HARAHAP, NENENG PRATIWI MATONDANG, KHAISYA PUTRI, LAURA F. M. SIMAMORA, GABRIYELLA SITOMPUL	

- Evaluating the quality of aquatic environment on the Planktonic-Index of Biotic Integrity (P-IBI) based whiteleg shrimp *Litopenaeus vannamei* (Boone, 1931) ponds** 4845-4853
MUHAMMAD AKBARURRASYID, VINI TARU FEBRIANI PRAJAYATI, ACHMAD SOFIAN, MUSTIKA KATRESNA
- Assessing the taxonomic identity and distribution of endemic and critically endangered *Cynometra cebuensis* F. Seid. (Fabaceae) in Cebu Island, Philippines** 4854-4861
EDGARDO P. LILLO, ARCHIEBALD B. MALAKI, STEVE MICHAEL T. ALCAZAR, MARIA LEVY M. CHAVEZ, DEMETRIO M. CAÑARIJO III, ERWIN M. PANTINOPLE, BERNARDO R. REDOBLADO, MARVIN A. MARGATE, JOHN LOU DIAZ, KRISTEL MAY C. FLORES, JESSA MARIE P. LILLO, CHRISTINE FAYE O. GONZAGA, RAAMAH ROSALES, ARNALDO ALMIRANTE, CHRISTINE JOY TOMOL
- The cooperation of microorganisms, bacteria, mold, yeast, and Actinomycetes consortium on decomposition of household organic waste in lowering C/N ratio** 4862-4869
LILIS PRIHASTINI, ARI HANDONO RAMELAN, PRABANG SETYONO, PRANOTO
- Association of g.331T>C and g.1909T>C locus in KISS1 gene with fecundity traits of kacang and boerka goats** 4870-4876
MASKUR, RAHMA JAN, LESTARI, TAPPAUL ROZI, MUHAMMAD MUHSININ
- Nutrition composition of commercial full-fat and defatted black soldier fly larvae meal (*Hermetia illucens*) as a potential protein resource for aquafeeds** 4877-4884
ISHAAQ SAPUTRA, YIH NIN LEE
- Curcuma suraponii* sp. nov. (Zingiberaceae), a new species of *Curcuma* subgen. *Curcuma* from Thailand** 4885-4895
THAWATPHONG BOONMA
- Effect of different drying methods on phenolic content, antioxidant, antidiabetic, anti-obesity, and inhibition kinetic properties of selective green leafy vegetables** 4896-4909
WAHYU HARYATI MASER, SUPATRA KARNJANAPRATUM, PASSAKORN KINGWASCHARAPONG, KARTHIKEYAN VENKATACHALAM, ALI MUHAMMED MOULA ALI, SRI CHARAN BINDU BAVISETTY
- Role of soil parameters in forest clove (*Syzygium obtusifolium*) habitat and their effects on phenology and production** 4910-4918
MARWAN YANI KAMSURYA, SAMIN BOTANRI, KAMARUDDIN, FAUZIA HULOPI, MUIMUNA LAHABI, JUNI LA DJUMAT
- Isolation of bacteria displaying potent antagonistic activity against fungi causes anthracnose disease in chilli** 4919-4926
TRAN THI NGOC TRAM, HOANG TAN QUANG, NGUYEN QUANG HOANG VU, PHAN THI THAO NGUYEN, TON NU MINH THI, TRUONG THI BICH PHUONG, PHAM THI DIEM THI
- Agronomic and morphological characteristics of two rice genotypes plant in open land and under two years of sengon (*Paraserianthes falcataria*)** 4927-4933
DULBARI, ZAINAL MUTAQIN, HERY SUTRISNO, NI SILUH PUTU NURYANTI, YURIANSYAH, DENNY SUDRAJAT, DESTIEKA AHYUNI, HIDAYAT SAPUTRA, LINA BUDIARTI, PRIYADI, FAJAR ROCHMAN, RIZKY RAHMADI, M ALAM FIRMANSYAH, SAIJO
- The first occurrence of Kemp's Ridley turtle (*Lepidochelys kempii*) in Raja Ampat, Indonesia** 4934-4942
FERLIANA WIDAYSARI, AJI NUGROHO, GULAM ARAFAT, RAHMADI SUNOKO, RUDI ALEX WAHYUDIN, MOHAMMAD SAYUTI, ELISA BAKKULA, FERDIEL BALLAMU
- Production competitiveness of regional sorghum genotypes against new, enhanced varieties and their morphological traits in Gunung Kidul, Yogyakarta, Indonesia** 4943-4949
ARIF MUAZAM, BUDI SETIADI DARYONO, KRISTAMTINI
- Reef fish monitoring as a coral reef resilience indicator in the Sempu Strait, South of East Java, Indonesia** 4950-4959
GATUT BINTORO, ANDIK ISDIANTO, NUDDIN HARAHAH, ANDI KURNIAWAN, AGUS DWI WICAKSONO, RELIA MAHARDITHA, AULIA LANUDIA FATHAH, BERLANIA MAHARDIKA PUTRI, MUCHAMAD FAIRUZ HAYKAL, MUHAMMAD ARIF ASADI, ARIEF SETYANTO, TRI DJOKO LELONO, OKTIYAS MUZAKY LUTHFI, DWI CANDRA PRATIWI

Poultry slaughterhouse wastewater as reservoirs for spreading extended-spectrum beta-lactamase-producing <i>Escherichia coli</i> in Abakaliki, Nigeria EMMANUEL NNABUIKE UGBO, JENNIFER INIOBONG JACOB, MUSTOFA HELMI EFFENDI, ADIANA MUTAMSARI WITANINGRUM, BERNARD NNABUIFE AGUMAH, AGATHA IFUNANYA UGBO BENJAMIN IKECHUKWU MOSES	4960-4966
Characterization and molecular identification of bacteria from mackerel <i>bekasam</i> in Sorong City, Southwest Papua Province, Indonesia SUKMAWATI SUKMAWATI, RATNA RATNA, SIPRIYADI, MELDA YUNITA	4967-4977
Influences of zonation on water fertility and structure communities of phytoplankton and benthos in Batukaras mangrove forest, Pangandaran District, Indonesia DESTY PRATIWI, DINA OKTAVIA, DADAN SUMIARSA, SUNARDI SUNARDI	4978-4988
Potential of local <i>Bacillus</i> spp. isolates as wilt disease biocontrol agents for <i>Fusarium oxysporum</i> f. sp. <i>cepae</i> on <i>Allium x wakegi</i> ASRUL	4989-4997
Physical, chemical, and biological characteristics of crab (<i>Scylla</i> spp.) from East Kalimantan, Indonesia FANGGI, ESTI HANDAYANI HARDI, ANDI NIKHLANI, ANTON PANJI MAHENDRA, TARBIYAH, NOVITA, FITRI NOERHIDAYANTI	4998-5006
Total phenolic and flavonoid contents and their antioxidant capacity of <i>Curcuma xanthorrhiza</i> accessions from Jambi RAYANDRA ASYHAR, MINARNI MINARNI, RINI ANGGI ARISTA, WARAS NURCHOLIS	5007-5014
Genetic similarity among <i>Dendrobium</i> species from Indonesia using RAPD markers SRI HARTATI, SAMANHUDI, ONGKO CAHYONO	5015-5021
Morphological and anatomical studies of <i>Conamomum vietnamense</i> N.S. Lý & T.S. Hoang: an endemic plant from Vietnam NGUYEN THANH TO NHI, TRAN VAN CHEN, DUONG NGUYEN XUAN LAM, DANH DUC NGUYEN, QUANG DIEP DINH, NGUYEN HOANG KHANH LINH	5022-5034
Genetic diversity and molecular analysis using RAPD markers of banana cultivars in the five regions of East Java, Indonesia SLAMETO	5035-5043
Implementation of the pelagic hotspot index in detecting the habitat suitability area for bigeye tuna (<i>Thunnus obesus</i>) in the eastern Indian Ocean ZABHIKA DINDA ISTNAENI, JONSON LUMBAN GAOL, MUKTI ZAINUDDIN, DEVI FITRIANAH	5044-5056
Response diversity and traits related to pepper yellow leaf curl disease resilience for resistant plant selection TRI WAHONO DYAH AYU SAYEKTI, MUHAMAD SYUKUR, SRI HENDRASTUTI HIDAYAT, AWANG MAHARIJAYA, SOBIR	5057-5064
Differences in the vegetation dynamic patterns of three tropical secondary forests in South Sulawesi, Indonesia PUTU SUPADMA PUTRA, TOSHIHIRO YAMADA, AMRAN ACHMAD, NASRI NASRI, ANDI SIADY HAMZAH, PUTU OKA NGAKAN	5065-5073
Ultracentrifugation method for exosome isolation of HEK293 cells as a candidate model in-vitro therapy of breast cancer RIZKI NOVA AMELIDA, SILMI MARIYA, BELLA FATIMA DORA ZAELANI, YULIANA, HEPY DAYANA, HUDA S. DARUSMAN	5074-5079
Community structure of periphyton on bamboo substrate in whiteleg shrimp (<i>Litopenaeus vannamei</i> Boone, 1931) pond with semi-biofloc system DIANA ARFIATI, UMI ZAKIYAH, SEPTI ANITASARI, ZAKIYYAH NUR INAYAH, RIZKY KUSMA PRATIWI	5080-5087

Short Communication: The oleaginous <i>Candida tropicalis</i> isolated from mangrove soil in eastern Thailand and the fatty acid composition profile of its intracellular lipids SUDARAT WONGCHAMREARN, PARIMA BOONTANOM, SUNISA UNGWIWATKUL, NANNAPHAT EMNIN, AIYA CHANTARASIRI	5088-5095
Isolation and characterization of potential indigenous bacteria from the former bauxite mining area for heavy metal reduction TRISNA AMELIA, LILIASARI, KUSNADI, PINGKAN ADITIAWATI	5096-5104
Ritual use of <i>rosa de borracho (Clinopodium macrostemum (Moc. & Sessé ex Benth.) Kuntze, Lamiaceae)</i> in Oaxaca DALAY YETLANEZI CALVO-DÍAZ, LISBETH AGUILAR-HERNÁNDEZ, MAYTE STEFANY JIMÉNEZ-NORIEGA, ALEJANDRO TORRES-MONTÚFAR	5105-5112
Unraveling metabolite profile variations among resistance and susceptible shallot genotypes related to anthracnose (<i>Colletotrichum gloeosporioides</i>) RIZKI ABI AMRULLAH, AWANG MAHARIJAYA, AGUS PURWITO, SURYO WIYONO	5113-5122
Forests over limestone in Guiuan, Eastern Samar, the Philippines: Species composition and influencing environmental factors INOCENCIO E. BUOT JR., ELAINE LOREEN C. VILLANUEVA, MARNE G. ORIGENES, REN DIVIEN R. OBEÑA	5123-5136
Habitat and food habits of the endemic fish <i>Oryzias eversi</i> in Tana Toraja, South Sulawesi, Indonesia TRISKA LAMBA, AMBENG, IRMA ANDRIANI	5137-5145
Diversity and habitat characteristics of gastropods and bivalves associated with mangroves on the east coast of Aceh Province, Indonesia ABDUL L. MAWARDI, MUHAMMAD KHALIL, TRI MUSTIKA SARJANI, FAHMY ARMANDA	5146-5154
Genetic variation and phylogenetic position of <i>Taxus sumatrana</i> (Miq.) de Laub. (Taxaceae) in Sumatra, Indonesia based on <i>trnL-trnF</i> region IRSYAD KAMAL, NAWWALL ARROFAHA, SUSILA, KUSUMADEWI SRI YULITA, HENTI HENDALASTUTI RACHMAT, ARIDA SUSILOWATI	5155-5166
Characterization of type I L-asparaginase encoding gene from the thermohalophilic bacterium <i>Bacillus subtilis</i> CAT3.4 from Wawolesea Hot Spring, Southeast Sulawesi, Indonesia MUZUNI, MUHAMAD ILHAM, ARDIANSYAH, SURIANA, YUTRIANA PUTRI, KARTINA	5167-5178
Deterministic assessment of the ecological vulnerability of coastal freshwater canals: A perspective on social awareness and conservation NAJMUS SAKIB KHAN♥, MD. SAIFUL ISLAM, JABER BIN ABDUL BARI, MAEEN UDDIN, IRINA MASHKOVA♥♥, ANASTASIYA KOSTRYUKOVA, VIKTOR TROFIMENKO	5179-5188
Supernatant of Actinomycetes isolates with antiquorum sensing and antibiofilm activity against food spoilage bacteria GLORIA ANNE, DIANA ELIZABETH WATURANGI	5189-5197
A comparative assessment of <i>Lactiplantibacillus plantarum</i> isolated from chicken and humans as candidates for probiotics JESSICA SUNARDI, EMILY TANIA PURNAMA, MARCELIA SUGATA, HANS VICTOR, TAN TJIE JAN, JUANDY JO	5198-5206
Antimicrobial resistance pattern of <i>Salmonella</i> spp. isolated from poultry farms in Abakaliki, Nigeria EMMANUEL NNABUIKE UGBO, MUSTOFA HELMI EFFENDI, ADIANA MUTAMSARI WITANINGRUM, WIWIEK TYASNINGSIH, BERNARD NNABUIFE AGUMAH, AGATHA IFUNANYA UGBO, CHARITY CHINYERE NNABUGWU, DIVINEGIFT OLUCHI OKATA- NWALI	5207-5214
