GUIDANCE FOR AUTHORS

Aims and Scope *Biodiversitas*, *Journal of Biological Diversity* or *Biodiversitas* encourages submission of manuscripts dealing with all aspects of biodiversity, including plants, animals, and microbes at the level of the gene, species, and ecosystem. Ethnobiology papers are also considered.

Article types The journal seeks original full-length: (i) **Research papers**, (ii) **Reviews**, and (iii) **Short communications**. Original research manuscripts are limited to 8,000 words (including tables and figures) or proportional to articles in this publication number. Review articles are also limited to 8,000 words, while Short communications should be less than 2,500 words, except for pre-study.

Submission: The journal only accepts online submissions through the open journal system (<https://smujo.id/biodiv/about/submissions>) or, for login problems, email the editors at unsjournals@gmail.com (or editors@smujo.id). Submitted manuscripts should be the original works of the author(s). Please ensure that the manuscript is submitted using the template, which can be found at (<https://biodiversitas.mipa.uns.ac.id/D/template.doc>). The manuscript must be accompanied by a cover letter containing the article title, the first name and last name of all the authors, and a paragraph describing the claimed novelty of the findings versus current knowledge. Please also provide a list of five potential reviewers in your cover letter. They should come from outside your institution and better from three different countries. Submission of a manuscript implies the submitted work has not been published (except as part of a thesis or report, or abstract) and is not being considered for publication elsewhere. When a group writes a manuscript, all authors should read and approve the final version of the submitted manuscript and its revision; and agree on the submission of manuscripts for this journal. All authors should have made substantial contributions to the concept and design of the research, acquisition of the data and its analysis, drafting the manuscript, and correcting the revision. All authors must be responsible for the work's quality, accuracy, and ethics.

Ethics Author(s) must be obedient to the law and/or ethics in treating the object of research and pay attention to the legality of material sources and intellectual property rights.

Copyright If the manuscript is accepted for publication, the author(s) still hold the copyright and retain publishing rights without restrictions. For the new invention, authors must manage its patent before publication.

Open Access The journal is committed to free-open access that does not charge readers or their institutions for access. Readers are entitled to read, download, copy, distribute, print, search, or link to the full texts of articles, as long as not for commercial purposes. The license type is CC-BY-NC-SA.

Acceptance Only articles written in US English are accepted for publication. Manuscripts will be reviewed by editors and invited reviewers (double-blind review) according to their disciplines. Authors will generally be notified of acceptance, rejection, or need for revision within 1 to 2 months of receipt. Manuscripts will be rejected if the content does not align with the journal scope, does not meet the standard quality, is in an inappropriate format, or contains complicated grammar, dishonesty (i.e., plagiarism, duplicate publications, fabrication of data, citations manipulation, etc.), or ignoring correspondence in three months. The primary criteria for publication are scientific quality and significance. **Uncorrected proofs** will be sent to the corresponding author by system or email as .doc or .docx files for checking and correcting typographical errors. The corrected proofs should be returned in 7 days to avoid publication delays. The accepted papers will be published online in chronological order at any time but printed at the end of each month.

A charge Authors are charged USD 400 (IDR 6,000,000). Additional charges may be billed for language improvement, USD 75-150 (IDR 1,000,000-2,000,000). **Reprints** The sample journal reprint is only available by special request. Additional copies may be purchased when ordering by email and sending back the uncorrected proofs.

Manuscript preparation Manuscript is typed on A4 (210x297 mm²) paper size, in a single column, single space, 10-point (10 pt) Times New Roman font. The margin text is 3 cm from the top, 2 cm from the bottom, and 1.8 cm from the left and right. Smaller lettering sizes can be applied in presenting tables and figures (9 pt). Word processing program or additional software can be used; however, it must be PC compatible, use the template, and be Microsoft Word based (.doc or .rtf; not .docx). **Scientific names** of species (incl. subspecies, variety, etc.) should be written in italics, except in italicized sentences. Scientific names (genus, species, author) and cultivar or strain should be mentioned completely for the first time mentioning it in the body text, especially for taxonomic manuscripts. The genus name can be shortened after the first mention, except in early sentences, or where this may generate confusion; name of the author can be eliminated after the first mention. For example, *Rhizopus oryzae* L. UIC 524 can be written hereinafter as *R. oryzae* UIC 524. Using trivial names should be avoided. **Biochemical and chemical nomenclature** should follow the order of the IUPAC-IUB. For DNA sequences, it is better to use Courier New font. Standard chemical abbreviations can be applied for common and clear used, for example, completely written butilic hydroxyl toluene (BHT) to be BHT hereinafter. **Metric measurements** should use IS denominations, and other systems should use equivalent values with the denomination of IS mentioned first. A dot should not follow abbreviations like g, mg, mL, etc. Minus index (m⁻², L⁻¹, h⁻¹) suggested being used, except in things like "per-plant" or "per-plot." **Mathematical equations** can be written down in one column with text; in that case, they can be written separately. **Numbers** one to ten are written in words, except if it relates to measurement, while values above them are written in number, except in early sentences. The fraction should be expressed in decimal. In the text, it should be used "%" rather than "percent." Avoid expressing ideas with complicated sentences and verbiage/phrasing, and use efficient and effective sentences.

The title of the article should be written in compact, clear, and informative

sentence, preferably not more than 20 words. Name of author(s) should be completely written, especially for the first and the last name. **Name and institution** address should also be completely written with street name and number (location), postal code, telephone number, facsimile number, and email address. We choose local names in Bahasa Indonesia for universities in Indonesia. The mention of "strata" program, should be avoided. Manuscript written by a group, author for correspondence along with address is required (marked with "¶"). **The title page** (first page) should include title of the article, full name(s), institution(s) and address(es) of the author(s); the corresponding authors detailed postage and e-mail addresses (P), and phone and fax numbers (O).

Abstract A concise abstract is required (about 200 words). The abstract should be informative and state briefly the aim of the research, the principal results and major conclusions. An abstract is often presented separately from the article, thus it must be able to stand alone (completely self-explanatory). References should not be cited, but if essential, then cite the author(s) and year(s). Abbreviations should be avoided, but if essential, they must be defined at their first mention. **Keywords** are about five words, covering scientific and local name (if any), research themes, and special methods used; and sorted from A to Z. **Abbreviations** (if any): All important abbreviations must be defined at their first mention there. **Running title** is about five words.

Introduction is about 600 words, covering the aims of the research and provide an adequate background, avoiding a detailed literature survey or a summary of the results. **Materials and Methods** should emphasize on the procedures and data analysis. **Results and Discussion** should be written as a series of connecting sentences, however, for a manuscript with long discussion should be divided into subtitles. Thorough discussion represents the causal effect mainly explains why and how the results of the research were taken place, and do not only re-express the mentioned results in the form of sentences. **Concluding** sentence should be given at the end of the discussion. **Acknowledgements** are expressed in a brief; all sources of institutional, private and corporate financial support for the work must be fully acknowledged, and any potential conflicts of interest are noted.

Figures and Tables of a maximum of three pages should be clearly presented. The title of a picture is written down below the picture, while the title of a table is written above the table. Colored figures can only be accepted if the information in the manuscript can lose without those images; the chart is preferred to use black and white images. The author could consign any picture or photo for the front cover, although it does not print in the manuscript. All images property of others should be mentioned the source. Author is suggested referring to Wikipedia for international boundaries and Google Earth for satellite imagery. If not specifically mentioned, it is assumed to refer to these sources. **There is no appendix**, all data or data analysis is incorporated into Results and Discussions. For broad data, it can be displayed on the website as a supplement.

References Preferably 80% of it comes from scientific journals published in the last 10 years. In the text, give the author names followed by the year of publication and arrange from oldest to newest and from A to Z; in citing an article written by two authors, both of them should be mentioned; however, for three and more authors only the first author is mentioned followed by et al. For example, Saharjo and Nurhayati (2006) or (Boonkerd 2003a, b, c; Sugiyarto 2004; El-Bana and Nijs 2005; Balagadde et al. 2008; Webb et al. 2008). Extent citation should be avoided, as shown with the word "cit." Reference to unpublished data and personal communication should not appear in the list but should be cited in the text only (e.g., Rifai MA 2007, pers. com. (personal communication); Setyawan AD 2007, unpublished data). In the reference list, the references should be listed in alphabetical order. Names of journals should be abbreviated. Always use the standard abbreviation of a journal's name according to the **ISSN List of Title Word Abbreviations** (www.issn.org/2-22661-LTWA-online.php). Please include DOI links for journal papers. The following examples are for guidance.

Journal:

Saharjo BH, Nurhayati AD. 2006. Domination and composition structure change at hemic peat natural regeneration following burning: a case study in Pelalawan, Riau Province. *Biodiversitas* 7: 154-158. DOI: 10.13057/biodiv/d070213.

The usage of "et al." in long author lists will also be accepted:

BIODIVERSITAS

Journal of Biological Diversity
Volume 25 - Number 1 - January 2024

Microbiological and chemical characteristics of porkfish <i>inasua</i>, traditional fish fermented from Maluku FERYMON MAHULETTE	1-8
Systematic assessment of salt tolerance based on morpho-physiological traits and genes related in inbred rice lines at the seedling stage RENY HERAWATI, MARULAK SIMARMATA, MASDAR, BAMBANG S. PURWOKO, MISWATI	9-20
Assessment of species diversity, biomass and carbon stock of mangrove forests on Belitung Island, Indonesia HENRI, ARTHUR MUHAMMAD FARHABY, OKTO SUPRATMAN, WAHYU ADI, SIGIT FEBRIANTO	21-29
Population study of <i>Cucurbita moschata</i> based on morphological characters and isozyme banding patterns in Bima District, West Nusa Tenggara, Indonesia MUHAMMAD FURQAN, SURANTO, SUGIYARTO,	30-38
The diversity and distribution of residential termites in the Minahasa Raya Region, North Sulawesi Province, Indonesia JACKLIN STELLA SALOME MANOPPO, RAMADHANI EKA PUTRA, RUDI DUNGANI, INTAN AHMAD	39-48
Diversity of universal stress protein in Enterobacteriales and its reduced expressions on <i>Pectobacterium brasiliense</i> after manuka honey treatment CHOTIMAH, ALAN SOFFAN, TRI JOKO	49-52
High-throughput analysis using 16S rRNA sequencing of bacterial communities associated in selected mangrove species from Bayug Island, Iligan City, Philippines STEFENIE KATRIN V. SIBLOS, SHARON ROSE TABUGO,	53-61
Species richness and dispersion patterns of Lepidoptera (Rhopalocera) in the Nuraksa Forest Park, Lombok, Indonesia MOHAMMAD LIWA ILHAMDI, AGIL AL IDRUS, DIDIK SANTOSO, GITO HADIPRAYITNO, MUHAMMAD SYAZALI, ISMAWAN HARIADI	62-70
Applications of the Zingiberaceae in traditional medicine among the Dayak Tamambaloh tribe in Labian Ira'ang and Temau Villages, Kapuas Hulu District, Indonesia MARKUS IYUS SUPIANDI, HENDRIKUS JULUNG, YUDITA SUSANTI, DIDIN SYAFRUDDIN, ADRIANA GANDASARI, SUSRIYATI MAHANAL, SITI ZUBAIDAH	71-78
The Mien people's ethnobotanical survey of medicinal plant use in Thailand and Vietnam PRATEEP PANYADEE, WITTAYA PONGAMORNKUL, TRAN VAN ON, NGHIEM DUC TRONG, PHẠM THỊ LINH GIANG, LE THIEN KIM, ANGKHANA INTA, PANEE SIRISA-ARD, SUNEI CHANSAKAOW	79-96
Morphological variability and cluster analysis of 16 bambara groundnut (<i>Vigna subterranea</i>) genotypes MUHAMMAD FAUZAN FARID AL HAMDI1, SATRIYAS ILYAS, ABDUL QADIR, SEAN MAYES	97-106
The addition of anaerobic fungi isolates from buffalo rumen to increase fiber digestibility, fermentation, and microbial population in ruminants SINTA AGUSTINA, KOMANG GEDE WIRYAWAN, SRI SUHARTI, ANJA MERYANDINI	107-115
Ethnobotany of cassava (<i>Manihot esculenta</i> Crantz) in the traditional peri-urban Sundanese community of Cireundeu Hamlet, Cimahi City, West Java, Indonesia BUDI IRAWAN, KARINA MAHESWARI SAFIRA, ANNISA, ENENG NUNUZ ROHMATULLAYALY, MUHAMMAD IHSAN, SURYANA, JOHAN ISKANDAR, BUDIAWATI S. ISKANDAR	116-128

Population study of long-tailed macaque (<i>Macaca fascicularis</i>) on Deli Island, Banten, Indonesia	129-135
YULI S. FITRIANA, EKO SULISTYADI, RIZKI KURNIA TOHIR, MHD MUHAJIR HASIBUAN, FARID RIFAIE, IBNU MARYANTO, ARIE MULIA LUBIS, M. FAJRUR RIFQI	
Polymerase gene mutation pattern in patients of chronic Hepatitis B treatment in Prof. Dr. W.Z. Johannes Hospital, Kupang, Indonesia	136-141
AGUSTINA WELHELMINA DJUMA, SHERLY DEWU, NORMA TIKU KAMBUNO, AYORINCE BANUNU, OTTO SAHAT MARTUA SILAEN,	
Mangrove gastropod distribution based on dominant vegetation classes and their relationship with physicochemical characteristics on fringe mangroves of Lembongan Island, Bali, Indonesia	142-152
NI MADE ERNAWATI, AYU PUTU WIWEKA KRISNA DEWI, I PUTU SUGIANA, I WAYAN EKA DHARMAWAN, MIFTACHUDIN SYAIFUL MA'RUF, GEMMA ANTONIA GALGANI	
Examining the effectiveness of bored pile coral for coral rehabilitation	153-161
NOVITA PERMATA PUTRI, MUHAMMAD RIFAT MUHARAM, ABDULRAHMAN RITONGA, CORINA DEWI RUSWANTI, DIAN ARTHEN, MUNASIK	
Bioactive compounds and DPPH antioxidant activity of underutilized macroalgae (<i>Sargassum</i> spp.) from coastal water of Makassar, Indonesia	162-168
SANTIA GARDENIA WIDYASWARI, METUSALACH, KASMIATI, NURSINAH AMIR	
The protection effort of leopard cats (<i>Prionailurus bengalensis</i> Kerr 1792) in the Upper Cisokan Pumped Storage, West Java, Indonesia	169-176
HUSODO, ERRI NOVIAR MEGANTARA, ASEP ZAINAL MUTAQIN, DWI RUSTAM KENDARTO, INDRI WULANDARI, SYA SYA SHANIDA	
Assessment of the dynamic growth and potassium solubilization capability of three novel bacteria	177-185
IMAM HARTONO BANGUN, BUNGA RAYA KETAREN, ASRITANARNI MUNAR, PERDINANTA SEMBIRING, NURHAJIJAH, ANDRI ABDI, REYZA SUWANTO SITORUS	
Understanding the impact of munia birds (<i>Aves: Passeriformes: Estrildidae</i>) on rice farming: Behavior, distribution, and bioacoustic parameters	186-196
AGUNG SIH KURNIANTO, NILASARI DEWI, NANANG TRI HARYADI, WILDAN ASSHIDIQQI ARMA, REZA MAULANA, YURISKA HEPTA SARI, WANDA HAMIDAH, NUR LAILA MAGVIRA, AHMAD MUAMMAR KADAFI	
Analysis of the difference in endophytic bacterial community structure between infected and non-infected rice plants with rice bakanae disease	197-204
YANMIN YU, HAIYING LIU, ZHENHUA XU, PING YAN, HONGTAO WU, LICHENG WU,	
Agricultural landscape composition alters ant communities in maize fields more than plant diversity enrichment	205-213
DESI NATALIA PASARIBU, AKHMAD RIZALI, HAGUS TARNO, WINDRA PRIAWANDIPUTRA, MIDZON JOHANNIS, DAMAYANTI BUCHORI,	
The role of local pigs for economic and socio-cultural in East Flores District, East Nusa Tenggara, Indonesia	214-222
ARKADIUS SUBHAN KERAY, RINI WIDIATI, TRI ANGGRAENI KUSUMASTUTI	
Morphological characteristic and truss morphometric analysis of amphidromous goby ('nike') (<i>Teleostei: Gobiiformes</i>) in Bone River, Gorontalo, Indonesia	223-231
NURALIM PASISINGI, DWY SUCI, CITRA PANIGORO, MIFTAHUL KHAIR KADIM	
Plant biodiversity and people's behaviour on environmental conservation in Pabelan Islamic Boarding School, Magelang, Central Java, Indonesia	232-239
IRFAN ABU NAZAR, SUTARNO, MUDOFIR, SUNARTO	
Diversity and foraging activity of coffee insect pollinators in land near and far from the forest of North Sumatra, Indonesia	240-248
RIKA ROULINA SINAGA, NINA MARYANA, PURNAMA HIDAYAT	

Structure and distribution of palm tree species in <i>Altingia excelsa</i> planted forest in Gunung Gede Pangrango National Park, West Java, Indonesia ASEP SADILI, ANDI SALAMAH, EDI MIRMANTO, KUSWATA KARTAWINATA	249-256
Morphoanatomy and physiology of <i>Swietenia macrophylla</i> in different light environments: Insights into its invasive ability in the Philippines REGULOS NOLASCO AGOTO JR., JONATHAN OGAYON HERNANDEZ, BYUNG BAE PARK	257-263
Short Communication: Photogrammetric analysis of the number and pattern of dorsal cranium scale of juvenile green iguana (<i>Iguana iguana</i>) BAGUS FAUZUL RAMADHANI, M. GANDUL ATIK YULIANI, GRACIA ANGELINA HENDARTI, TANTRI DYAH WHIDI PALUPI, ZULFI NUR AMRINA ROSYADA, SOEHARSONO, EPY MUHAMMAD LUQMAN, PUDJI SRIANTO, YENI DHAMAYANTI, BOEDI SETIAWAN	264-268
Changes in physicochemical, microbiological, and sensory quality of fermented milk with <i>Lactiplantibacillus pentosus</i> during cold storage SUSMIATI, SRI MELIA, ILFA KHAIRINA, HURRIYA ALZAHRA	269-275
Genetic diversity and connectivity of red snapper <i>Lutjanus gibbus</i> (Forsskal, 1775) in the Papua Waters, Indonesia BAYU PRANATA, RIDWAN SALA, ARADEA BUJANA KUSUMA, ABDUL HAMID A. TOHA, DEBORA CHRISTIN PURBANI, DANIEL FRIKLI MOKODONGAN, SIPRIYADI	276-286
Ecosystem carbon stock and annual sequestration rate from three genera-dominated mangrove zones in Benoa Bay, Bali, Indonesia I PUTU SUGIANA, TRI PRARTONO, RASTINA, ALAN FRENDY KOROPITAN	287-299
Floristic composition of mangrove community in Ngurah Rai Forest Park and Nusa Lembongan, Bali, Indonesia I MADE SAKA WIJAYA, I PUTU SUGIANA, IDA AYU ASTARINI, I KETUT GINANTRA, KHAIRUL ADHA A. RAHIM	300-309
Species composition of <i>Bactrocera</i> fruit flies (Diptera: Tephritidae) and their parasitoids on horticultural commodities in Batu City and Malang District, East Java, Indonesia YOGO SETIAWAN, FADEL MUHAMMAD HAMDOEN, FAIZ NASHIRUDDIN MUHAMMAD, KUNIHICO HATA, HAGUS TARNO, JIANGUO WANG	305-311
The first report of dark septate endophytes from Indonesian <i>Pinus merkusii</i> and its symbiosis role as a plant growth promoter in nursery condition JUMADIL AKHIR, ELIS NINA HERLIYANA, SURONO, SRI WILARSO BUDI	312-321
Estrous characteristics and steroid concentrations in Aceh cows (<i>Bos indicus</i>) after estrus synchronization using prostaglandin F2α HAFIZUDDIN, HUSNURRIZAL, CUT NILA THASMI, HERRIALFIAN, NABILA LIONANDA SALSABIL, TONGKU NIZWAN SIREGAR, AMALIA SUTRIANA	322-328
Spatial variability of organic matter in two mangrove ecosystems in Langkawi, Kedah, Malaysia ROHAYU RAMLI, FAEZAH PARDI, HARINDER RAI SINGH, MUHAMMAD AKMAL ROSLANI, KHAIRUL NAIM ABD. AZIZ, SHARIR AIZAT KAMARUDDIN	329-336
Isolation and identification of <i>Bifidobacterium</i> species from human breast milk and infant feces in Indonesia ROBIN DOSAN, SAMUEL OWEN MUDANA, CLARA MEIRINZHA PANG JULYANTO, EMILY TANIA PURNAMA, MARCELIA SUGATA, JUANDY JO, TJIE JAN TAN	337-343
Community structure of sea cucumber (Echinodermata: Holothuroidea) resources in the Kepulauan Seribu National Park, Indonesia NAZWA AYUNDA HELMIYANI, SURYANTI SURYANTI, FRIDA PURWANTI	344-354
Genetic variation of the native Rusa deer (<i>Rusa timorensis</i>) in Java and Bali (Indonesia) as revealed using non-invasive sampling M. HAFIZHUL IMAN, PARAMITA CAHYANINGRUM KUSWANDI, SENA ADI SUBRATA	355-360

In vitro screening of fungal endophytes from sandalwood (<i>Santalum album</i>) as antagonists to phytopathogens	361-371
AGNES V. SIMAMORA, MAYAVIRA V. HAHULY, PETRONELLA S. NENOTEK, YENNY RAJA KANA, M. KASIM, RODDIALEK POLLO, ANTONIUS RB. OLA, FADLAN PRAMATANA	
Morphological and molecular identifications of ectoparasites infesting the gills of scalloped spiny lobster <i>Panulirus homarus</i> Linnaeus, 1758	372-378
KISMIYATI, YUSUF TAUFIK HIDAYAT, MUHAMAD AMIN	
Positive interaction of <i>trembesi</i> (<i>Samanea saman</i>) and arbuscular mycorrhizae fungi in Pb stabilization of gold-mine tailing media	379-385
LULUK SETYANINGSIH, FILDZAH AISYAH RAMADHANI, ZAINAL MUTTAQIN, MAMAY MASLAHAT	
Selection for representative environment to identify high yielding and sweetness levels of sweet potato (<i>Ipomoea batatas</i>) in Indonesia	386-391
ESO SOLIHIN, DWI ANDREAS SANTOSA, BUDI NUGROHO, PURWONO, RIJA SUDIRJA, HARIS MAULANA, NADIA NURANIYA KAMALUDDIN, AGUNG KARUNIAWAN, SYAIFUL ANWAR	
Biodiversity of hydrolytic enzymes-producing soil bacteria from De Durian Park, Jombang, Indonesia: Beneficial prospect for sustainable agriculture	392-403
