GUIDANCE FOR AUTHORS

Aims and Scope *Biodiversitas*, *Journal of Biological Diversity* or *Biodiversitas* encourages submission of manuscripts dealing with all aspects of biodiversity, including plants, animals, and microbes at the level of the gene, species, and ecosystem. Ethnobiology papers are also considered.

Article types The journal seeks original full-length: (i) **Research papers**, (ii) **Reviews**, and (iii) **Short communications**. Original research manuscripts are limited to 8,000 words (including tables and figures) or proportional to articles in this publication number. Review articles are also limited to 8,000 words, while Short communications should be less than 2,500 words, except for pre-study.

Submission: The journal only accepts online submissions through the open journal system (<https://smujo.id/biodiv/about/submissions>) or, for login problems, email the editors at unsjournals@gmail.com (or editors@smujo.id). Submitted manuscripts should be the original works of the author(s). Please ensure that the manuscript is submitted using the template, which can be found at (<https://biodiversitas.mipa.uns.ac.id/D/template.doc>). The manuscript must be accompanied by a cover letter containing the article title, the first name and last name of all the authors, and a paragraph describing the claimed novelty of the findings versus current knowledge. Please also provide a list of five potential reviewers in your cover letter. They should come from outside your institution and better from three different countries. Submission of a manuscript implies the submitted work has not been published (except as part of a thesis or report, or abstract) and is not being considered for publication elsewhere. When a group writes a manuscript, all authors should read and approve the final version of the submitted manuscript and its revision; and agree on the submission of manuscripts for this journal. All authors should have made substantial contributions to the concept and design of the research, acquisition of the data and its analysis, drafting the manuscript, and correcting the revision. All authors must be responsible for the work's quality, accuracy, and ethics.

Ethics Author(s) must be obedient to the law and/or ethics in treating the object of research and pay attention to the legality of material sources and intellectual property rights.

Copyright If the manuscript is accepted for publication, the author(s) still hold the copyright and retain publishing rights without restrictions. For the new invention, authors must manage its patent before publication.

Open Access The journal is committed to free-open access that does not charge readers or their institutions for access. Readers are entitled to read, download, copy, distribute, print, search, or link to the full texts of articles, as long as not for commercial purposes. The license type is CC-BY-NC-SA.

Acceptance Only articles written in US English are accepted for publication. Manuscripts will be reviewed by editors and invited reviewers (double-blind review) according to their disciplines. Authors will generally be notified of acceptance, rejection, or need for revision within 1 to 2 months of receipt. Manuscripts will be rejected if the content does not align with the journal scope, does not meet the standard quality, is in an inappropriate format, or contains complicated grammar, dishonesty (i.e., plagiarism, duplicate publications, fabrication of data, citations manipulation, etc.), or ignoring correspondence in three months. The primary criteria for publication are scientific quality and significance. **Uncorrected proofs** will be sent to the corresponding author by system or email as .doc or .docx files for checking and correcting typographical errors. The corrected proofs should be returned in 7 days to avoid publication delays. The accepted papers will be published online in chronological order at any time but printed at the end of each month.

A charge Authors are charged USD 400 (IDR 6,000,000). Additional charges may be billed for language improvement, USD 75-150 (IDR 1,000,000-2,000,000). **Reprints** The sample journal reprint is only available by special request. Additional copies may be purchased when ordering by email and sending back the uncorrected proofs.

Manuscript preparation Manuscript is typed on A4 (210x297 mm²) paper size, in a single column, single space, 10-point (10 pt) Times New Roman font. The margin text is 3 cm from the top, 2 cm from the bottom, and 1.8 cm from the left and right. Smaller lettering sizes can be applied in presenting tables and figures (9 pt). Word processing program or additional software can be used; however, it must be PC compatible, use the template, and be Microsoft Word based (.doc or .rtf; not .docx). **Scientific names** of species (incl. subspecies, variety, etc.) should be written in italics, except in italicized sentences. Scientific names (genus, species, author) and cultivar or strain should be mentioned completely for the first time mentioning it in the body text, especially for taxonomic manuscripts. The genus name can be shortened after the first mention, except in early sentences, or where this may generate confusion; name of the author can be eliminated after the first mention. For example, *Rhizopus oryzae* L. UICC 524 can be written hereinafter as *R. oryzae* UICC 524. Using trivial names should be avoided. **Biochemical and chemical nomenclature** should follow the order of the IUPAC-IUB. For DNA sequences, it is better to use Courier New font. Standard chemical abbreviations can be applied for common and clear used, for example, completely written butilic hydroxyl toluene (BHT) to be BHT hereinafter. **Metric measurements** should use IS denominations, and other systems should use equivalent values with the denomination of IS mentioned first. A dot should not follow abbreviations like g, mg, mL, etc. Minus index (m², L⁻¹, h⁻¹) suggested being used, except in things like "per-plant" or "per-plot." **Mathematical equations** can be written down in one column with text; in that case, they can be written separately. **Numbers** one to ten are written in words, except if it relates to measurement, while values above them are written in number, except in early sentences. The fraction should be expressed in decimal. In the text, it should be used "%" rather than "percent." Avoid expressing ideas with complicated sentences and verbiage/phrasing, and use efficient and effective sentences.

The title of the article should be written in compact, clear, and informative

sentence, preferably not more than 20 words. Name of author(s) should be completely written, especially for the first and the last name. **Name and institution** address should also be completely written with street name and number (location), postal code, telephone number, facsimile number, and email address. We choose local names in Bahasa Indonesia for universities in Indonesia. The mention of "strata" program, should be avoided. Manuscript written by a group, author for correspondence along with address is required (marked with "¶"). **The title page** (first page) should include title of the article, full name(s), institution(s) and address(es) of the author(s); the corresponding authors detailed postage and e-mail addresses (P), and phone and fax numbers (O).

Abstract A concise abstract is required (about 200 words). The abstract should be informative and state briefly the aim of the research, the principal results and major conclusions. An abstract is often presented separately from the article, thus it must be able to stand alone (completely self-explanatory). References should not be cited, but if essential, then cite the author(s) and year(s). Abbreviations should be avoided, but if essential, they must be defined at their first mention. **Keywords** are about five words, covering scientific and local name (if any), research themes, and special methods used; and sorted from A to Z. **Abbreviations** (if any): All important abbreviations must be defined at their first mention there. **Running title** is about five words.

Introduction is about 600 words, covering the aims of the research and provide an adequate background, avoiding a detailed literature survey or a summary of the results. **Materials and Methods** should emphasize on the procedures and data analysis. **Results and Discussion** should be written as a series of connecting sentences, however, for a manuscript with long discussion should be divided into subtitles. Thorough discussion represents the causal effect mainly explains why and how the results of the research were taken place, and do not only re-express the mentioned results in the form of sentences. **Concluding** sentence should be given at the end of the discussion. **Acknowledgements** are expressed in a brief; all sources of institutional, private and corporate financial support for the work must be fully acknowledged, and any potential conflicts of interest are noted.

Figures and Tables of a maximum of three pages should be clearly presented. The title of a picture is written down below the picture, while the title of a table is written above the table. Colored figures can only be accepted if the information in the manuscript can lose without those images; the chart is preferred to use black and white images. The author could consign any picture or photo for the front cover, although it does not print in the manuscript. All images property of others should be mentioned the source. Author is suggested referring to Wikipedia for international boundaries and Google Earth for satellite imagery. If not specifically mentioned, it is assumed to refer to these sources. **There is no appendix**, all data or data analysis is incorporated into Results and Discussions. For broad data, it can be displayed on the website as a supplement.

References Preferably 80% of it comes from scientific journals published in the last 10 years. In the text, give the author names followed by the year of publication and arrange from oldest to newest and from A to Z; in citing an article written by two authors, both of them should be mentioned; however, for three and more authors only the first author is mentioned followed by et al. For example, Saharjo and Nurhayati (2006) or (Boonkerd 2003a, b, c; Sugiyarto 2004; El-Bana and Nijs 2005; Balagadde et al. 2008; Webb et al. 2008). Extent citation should be avoided, as shown with the word "cit." Reference to unpublished data and personal communication should not appear in the list but should be cited in the text only (e.g., Rifai MA 2007, pers. com. (personal communication); Setyawan AD 2007, unpublished data). In the reference list, the references should be listed in alphabetical order. Names of journals should be abbreviated. Always use the standard abbreviation of a journal's name according to the **ISSN List of Title Word Abbreviations** (www.issn.org/2-22661-LTWA-online.php). Please include DOI links for journal papers. The following examples are for guidance.

Journal:

Saharjo BH, Nurhayati AD. 2006. Domination and composition structure change at hemic peat natural regeneration following burning: a case study in Pelalawan, Riau Province. *Biodiversitas* 7: 154-158. DOI: 10.13057/biodiv/d070213.

The usage of "et al." in long author lists will also be accepted:

Smith J, Jones M Jr, Houghton L et al. 1999. Future of health insurance. *N Engl J Med* 965: 325-329. DOI: 10.1007/s002149800025.

Genetic variability of IGF1 and IGF2 and correlation to body weight in Kedu chicken of Indonesia	4846-4852
ROSIDI, IMAM SUSWOYO, SIGIT MUGIYONO, ISMOYOWATI, ELLY TUGIYANTI	
Molecular detection of zoonotic <i>Spirometra</i> (Cestoda: Diphyllbothriidae) in Javan-spitting cobra (<i>Naja sputatrix</i>) snakes in Indonesia	4853-4859
ADITYA YUDHANA, ANJANI MARISA KARTIKASARI, RYANKA EDILA, RATIH NOVITA PRAJA, JONATHAN MARK HAMONANGAN, APRIL HARI WARDHANA, MUFASIRIN, SETIAWAN KOESDARTO	
Whole genome sequencing of a siderophore-producing bacterium isolated from Simadu pineapple roots	4860-4869
CUCU WIJAYANTI, PRAYOGA SURYADARMA, NISA RACHMANIA MUBARIK,.	
Genetic analysis of brown planthopper resistance in Thai cultivars, local varieties, and wild relatives of rice using molecular markers	4870-4877
JUTHAPORN SAENGPRAJAK, JIRAPA PHETSOM, APHIDECH SANGDEE, AJIN RATTANAPAN, ARNUSORN SAENGPRAJAK, THANWANIT THANYASIRIWAT, WUTTIPHONG MAHAKHAM, PIYADA THEERAKULPISUT	
Diurnal activity patterns of painted storks (<i>Mycteria leucocephala</i>) in an urban artificial wetland in Malaysia	4878-4885
NURFARAH AIN LIMIN, MUHAMMAD ZULFADLI ZAINAL ABIDIN, NURUL NABILAH SHAMSHUL KAMAR, MUHAMMAD AL AMIN AMRAN, NUR NADIAH MD YUSOF,	
Survey of mosquitoes species in Henda Village, Pulang Pisau District, Central Kalimantan, Indonesia in filariasis case area	4886-4893
INDRIA AUGUSTINA, M. YUSUF ILHAM KURNIAWAN, NOPTA TRIAWAN, MUHAMMAD FACHRIZAL MANTA, NATHASYA RIZKYANA RIYADI, MUHAMMAD ANDREAN SYAHRIDHO, ARINI RATNASARI, MILA KARMILA, ARIF RAHMAN JABAL,	
Phylogeny of <i>Wolbachia</i> in the <i>Drosophila</i> mutant from Bandung, Indonesia	4894-4899
ENDANG SRIMURNI KUSMINTARSIH, PESONA GEMILANG, AGUS NURYANTO, HANAN HASSAN ALSHEIKH MAHMOUD, TRISNOWATI BUDI AMBARNINGRUM	

Phytochemical composition and bioactivity of <i>Parkia timoriana</i> leaf extract from Kediri, Indonesia in various solvent polarities	4900-4908
ATMIRA SARIWATI, FITA SARI, VENTY SURYANTI DESI SUCI HANDAYANI, HILDA ALFIYANI SETYONO, NINIS YULIATI	
Species diversity and distribution of Odonata in Brgy. Rogongon, Iligan City, Philippines	4909-4919
DENMAR D. MAGSALAY, OLGA M. NUÑEZA, REAGAN JOSEPH T. VILLANUEVA	
Impact of genotype and harvest age on the polyphenol content and antioxidant capacity of okra (<i>Abelmoschus esculentus</i>) in Indonesia	4920-4929
NOVIAN LIWANDA, MUHAMAD SYUKUR, WARAS NURCHOLIS	
Weed species in plant communities as indicators of degradation of vegetation cover and fertile soil layer in desert regions	4930-4938
BEKTEMIR OSMONALI, AIGUL TOKBERGENOVA, OMIRZHAN TAUKEBAYEV, KANAT ZULPYKHAROV, RUSLAN SALMURZAULY, ZHASSULAN SMANOV, SERIKBAY USSEN	
Characterization and potential of L-glutaminase enzyme from symbiotic red algae <i>Eucheuma spinosum</i> as antibacterial, anticancer, and anti-viral dengue agents by in vitro	4939-4949
HARNINGSIH KARIM, ARIEF AZIS, ANANDA RAMADANI, A. TENRIUGI DAENG PINE, ANITA, AHYAR AHMAD, MUKRIANI, MUH NASRUM MASSI, ANDI DIAN PERMANA	
Assessment of morphological characteristics and quality of turfgrass <i>Zoysia matrella</i> accessions from Indonesia	4950-4960
RAHAYU, AKTAVIA HERAWATI, GANJAR HERDIANSYAH, RADEN AJENG ALMA AZZAHRA KUSUMA PUTRI, ADNAN SOFYAN, QAMAL MUTTAQIN	
Species richness and nest entrance characteristics of stingless bees (Hymenoptera: Apidae: Meliponini) in Ujung Kulon National Park, Banten, Indonesia	4961-4970
JAJANG MIHARJA, TRI ATMOWIDI, WINDRA PRIAWANDIPUTRA, DYAH PERWITASARI, SIH KAHONO	
Characterizing the chemical composition and variations of several medicinal plant leaves using ¹H NMR Spectroscopy	4971-4977
HANAN ALMAHASHEER	
Occurement assessment of helminth parasites in <i>Euthynnus affinis</i> from Banten, Indonesia	4978-4985
FORCEP RIO INDARYANTO, MOHAMMAD MUKHLIS KAMAL, NURLISA A. BUTET, RIDWAN AFFANDI, RISA TIURIA	
Short Communication: Helminth fauna of Lutjanidae from Kedonganan, Bali, Indonesia	4986-4993
ERICK ARRASHY RUDIANTO, DIAH PERMATA WIJAYANTI, DWI HARYANTI, ELIS INDRAYANTI	
Using morphometric characters to estimate leaf productivity of seagrass <i>Halophila major</i>	4994-5004
ROBBA FAHRISY DARUS, DIETRIECH GEOFFREY BENGEN, NEVIATY PUTRI ZAMANI, MEUTIA SAMIRA ISMET	
Proposal to list the peruvian tuco-tuco (<i>Ctenomys peruanus</i>, Ctenomyidae, Rodentia) as a critically endangered species	5005-5011
CÉSAR EDGARDO MEDINA, YASMY KARINA MEDINA, EDWIN FREDY BOCARDO	
Mapping of Sapuka Islands water areas, South Sulawesi, Indonesia using Marxan technology for coral reef conservation	5012-5023
JAYA YAYA, ROSWIYANTI ROSWIYANTI, ABDUL RAUF, ANDI NUR APUNG MASSISENG, LUKMAN DARIS, ST. ZAENAB	
Rapid assessment of a thrips outbreak on shallots in Brebes and Tegal, Central Java Province, Indonesia	5024-5030
SHANIA ANANDA, HERMANU TRIWIDODO, RULY ANWAR, DEWI SARTIAMI	
Ethnozoological knowledge of diversity, folk taxonomy, and animal hunting among the Baduy in western Java, Indonesia	5031-5045
BUDIAWATI SUPANGKAT ISKANDAR, JOHAN ISKANDAR, DEDE MULYANTO, JATNA SUPRIATNA	

Short communication: Orchid diversity in the riparian area of Samin River, Central Java, Indonesia	5046-5054
BISMA YOGA HERDANANTA, RESSA KARINA, SOFIYANA KHOIRUNNISA, GILANG DWI NUGRAHA, AHMAD DWI SETYAWAN	
The spillover effect of bird functional groups on oil palm smallholdings in Indonesia	5055-5062
DIMAS HARYO PRADANA, MUFTI PETALA PATRIA, YASMAN, NURUL LAKSMI WINARNI	
Endophytic fungi isolated from <i>Heliotropium indicum</i>: the antagonism activity toward <i>Fusarium solani</i> and <i>F. oxysporum</i>	5063-5073
ALI MUSTOFA, UTAMI SRI HASTUTI, HENDRA SUSANTO	
Impact of intermittent stream flow on water quality and structural composition of macroinvertebrates in a semi-arid region of South Africa	5074-5082
THATO P. MATITA, ABRAHAM ADDO-BEDIAKO, WILMIEN LUUS-POWELL	
Identification of virulence genes from clinical isolates of Methicillin-Resistant <i>Staphylococcus aureus</i> (MRSA)	5083-5093
SARMAD QASSIM MOHAMMAD, HUSSAM SAMI AWAYID, SINDA ZARROUK-MAHJOUR, FEBRIANTO	
Biodiversity at risk: Rare, Endangered, Endemic, and Protected Species (REEPS) conservation in the Cisokan, West Java, Indonesia	5094-5102
TEGUH HUSODO, ERRI NOVIAR MEGANTARA, ASEP ZAINAL MUTAQIN, DWI RUSTAM KENDARTO, SUSANTI WITHANINGSIH, INDRI WULANDARI, SYA SYA SHANIDA, PUPUT FEBRIANTO	
Phenotypic and genotypic characteristics of pathogenic bacteria <i>Aeromonas veronii</i> bv <i>veronii</i> causes disease in Gourami (<i>Osphronemus gouramy</i> Lacepède, 1801)	5103-5111
DINI SISWANI MULIA, ZAHROTUN NISA, SUWARSITO, CAHYONO PURBOMARTONO, ALIM ISNANSETYO, NUNAK NAFIQOH, INA SALWANY MD YASIN, MOHAMAD AZZAM-SAYUTI	
Exploring the benefit of arbuscular mycorrhizal <i>Glomus</i> spp. in improving available soil P and crop growth of sorghum cultivated on ex-coal mine soil	5112-5122
BUDI PRASETYA, HERLIANA ARFIYANTI, NOVI ARFARITA	
Phytochemical, antioxidant, in silico, and in vitro anti-breast cancer effects of <i>Erigeron sumatrensis</i> from Gayo Highlands (Indonesia) against MCF-7 cells	5123-5137
VIVIVERA RUSSELLI PUSPA, MUHAMMAD ANSARI ADISTA, DJUFRI
