GUIDANCE FOR AUTHORS

Aims and Scope *Biodiversitas*, *Journal of Biological Diversity* or *Biodiversitas* encourages submission of manuscripts dealing with all aspects of biodiversity, including plants, animals, and microbes at the level of the gene, species, and ecosystem. Ethnobiology papers are also considered.

Article types The journal seeks original full-length: (i) **Research papers**, (ii) **Reviews**, and (iii) **Short communications**. Original research manuscripts are limited to 8,000 words (including tables and figures) or proportional to articles in this publication number. Review articles are also limited to 8,000 words, while Short communications should be less than 2,500 words, except for pre-study.

Submission: The journal only accepts online submissions through the open journal system (<https://smujo.id/biodiv/about/submissions>) or, for login problems, email the editors at unsjournals@gmail.com (or editors@smujo.id). Submitted manuscripts should be the original works of the author(s). Please ensure that the manuscript is submitted using the template, which can be found at (<https://biodiversitas.mipa.uns.ac.id/D/template.doc>). The manuscript must be accompanied by a cover letter containing the article title, the first name and last name of all the authors, and a paragraph describing the claimed novelty of the findings versus current knowledge. Please also provide a list of five potential reviewers in your cover letter. They should come from outside your institution and better from three different countries. Submission of a manuscript implies the submitted work has not been published (except as part of a thesis or report, or abstract) and is not being considered for publication elsewhere. When a group writes a manuscript, all authors should read and approve the final version of the submitted manuscript and its revision; and agree on the submission of manuscripts for this journal. All authors should have made substantial contributions to the concept and design of the research, acquisition of the data and its analysis, drafting the manuscript, and correcting the revision. All authors must be responsible for the work's quality, accuracy, and ethics.

Ethics Author(s) must be obedient to the law and/or ethics in treating the object of research and pay attention to the legality of material sources and intellectual property rights.

Copyright If the manuscript is accepted for publication, the author(s) still hold the copyright and retain publishing rights without restrictions. For the new invention, authors must manage its patent before publication.

Open Access The journal is committed to free-open access that does not charge readers or their institutions for access. Readers are entitled to read, download, copy, distribute, print, search, or link to the full texts of articles, as long as not for commercial purposes. The license type is CC-BY-NC-SA.

Acceptance Only articles written in US English are accepted for publication. Manuscripts will be reviewed by editors and invited reviewers (double-blind review) according to their disciplines. Authors will generally be notified of acceptance, rejection, or need for revision within 1 to 2 months of receipt. Manuscripts will be rejected if the content does not align with the journal scope, does not meet the standard quality, is in an inappropriate format, or contains complicated grammar, dishonesty (i.e., plagiarism, duplicate publications, fabrication of data, citations manipulation, etc.), or ignoring correspondence in three months. The primary criteria for publication are scientific quality and significance. **Uncorrected proofs** will be sent to the corresponding author by system or email as .doc or .docx files for checking and correcting typographical errors. The corrected proofs should be returned in 7 days to avoid publication delays. The accepted papers will be published online in chronological order at any time but printed at the end of each month.

A charge Authors are charged USD 400 (IDR 6,000,000). Additional charges may be billed for language improvement, USD 75-150 (IDR 1,000,000-2,000,000). **Reprints** The sample journal reprint is only available by special request. Additional copies may be purchased when ordering by email and sending back the uncorrected proofs.

Manuscript preparation Manuscript is typed on A4 (210x297 mm²) paper size, in a single column, single space, 10-point (10 pt) Times New Roman font. The margin text is 3 cm from the top, 2 cm from the bottom, and 1.8 cm from the left and right. Smaller lettering sizes can be applied in presenting tables and figures (9 pt). Word processing program or additional software can be used; however, it must be PC compatible, use the template, and be Microsoft Word based (.doc or .rtf; not .docx). **Scientific names** of species (incl. subspecies, variety, etc.) should be written in italics, except in italicized sentences. Scientific names (genus, species, author) and cultivar or strain should be mentioned completely for the first time mentioning it in the body text, especially for taxonomic manuscripts. The genus name can be shortened after the first mention, except in early sentences, or where this may generate confusion; name of the author can be eliminated after the first mention. For example, *Rhizopus oryzae* L. UICC 524 can be written hereinafter as *R. oryzae* UICC 524. Using trivial names should be avoided. **Biochemical and chemical nomenclature** should follow the order of the IUPAC-IUB. For DNA sequences, it is better to use Courier New font. Standard chemical abbreviations can be applied for common and clear used, for example, completely written butilic hydroxyl toluene (BHT) to be BHT hereinafter. **Metric measurements** should use IS denominations, and other systems should use equivalent values with the denomination of IS mentioned first. A dot should not follow abbreviations like g, mg, mL, etc. Minus index (m⁻², L⁻¹, h⁻¹) suggested being used, except in things like "per-plant" or "per-plot." **Mathematical equations** can be written down in one column with text; in that case, they can be written separately. **Numbers** one to ten are written in words, except if it relates to measurement, while values above them are written in number, except in early sentences. The fraction should be expressed in decimal. In the text, it should be used "%" rather than "percent." Avoid expressing ideas with complicated sentences and verbiage/phrasing, and use efficient and effective sentences.

The title of the article should be written in compact, clear, and informative

sentence, preferably not more than 20 words. Name of author(s) should be completely written, especially for the first and the last name. **Name and institution** address should also be completely written with street name and number (location), postal code, telephone number, facsimile number, and email address. We choose local names in Bahasa Indonesia for universities in Indonesia. The mention of "strata" program, should be avoided. Manuscript written by a group, author for correspondence along with address is required (marked with "¶"). **The title page** (first page) should include title of the article, full name(s), institution(s) and address(es) of the author(s); the corresponding authors detailed postage and e-mail addresses (P), and phone and fax numbers (O).

Abstract A concise abstract is required (about 200 words). The abstract should be informative and state briefly the aim of the research, the principal results and major conclusions. An abstract is often presented separately from the article, thus it must be able to stand alone (completely self-explanatory). References should not be cited, but if essential, then cite the author(s) and year(s). Abbreviations should be avoided, but if essential, they must be defined at their first mention. **Keywords** are about five words, covering scientific and local name (if any), research themes, and special methods used; and sorted from A to Z. **Abbreviations** (if any): All important abbreviations must be defined at their first mention there. **Running title** is about five words.

Introduction is about 600 words, covering the aims of the research and provide an adequate background, avoiding a detailed literature survey or a summary of the results. **Materials and Methods** should emphasize on the procedures and data analysis. **Results and Discussion** should be written as a series of connecting sentences, however, for a manuscript with long discussion should be divided into subtitles. Thorough discussion represents the causal effect mainly explains why and how the results of the research were taken place, and do not only re-express the mentioned results in the form of sentences. **Concluding** sentence should be given at the end of the discussion. **Acknowledgements** are expressed in a brief; all sources of institutional, private and corporate financial support for the work must be fully acknowledged, and any potential conflicts of interest are noted.

Figures and Tables of a maximum of three pages should be clearly presented. The title of a picture is written down below the picture, while the title of a table is written above the table. Colored figures can only be accepted if the information in the manuscript can lose without those images; the chart is preferred to use black and white images. The author could consign any picture or photo for the front cover, although it does not print in the manuscript. All images property of others should be mentioned the source. Author is suggested referring to Wikipedia for international boundaries and Google Earth for satellite imagery. If not specifically mentioned, it is assumed to refer to these sources. **There is no appendix**, all data or data analysis is incorporated into Results and Discussions. For broad data, it can be displayed on the website as a supplement.

References Preferably 80% of it comes from scientific journals published in the last 10 years. In the text, give the author names followed by the year of publication and arrange from oldest to newest and from A to Z; in citing an article written by two authors, both of them should be mentioned; however, for three and more authors only the first author is mentioned followed by et al. For example, Saharjo and Nurhayati (2006) or (Boonkerd 2003a, b, c; Sugiyarto 2004; El-Bana and Nijs 2005; Balagadde et al. 2008; Webb et al. 2008). Extent citation should be avoided, as shown with the word "cit." Reference to unpublished data and personal communication should not appear in the list but should be cited in the text only (e.g., Rifai MA 2007, pers. com. (personal communication); Setyawan AD 2007, unpublished data). In the reference list, the references should be listed in alphabetical order. Names of journals should be abbreviated. Always use the standard abbreviation of a journal's name according to the **ISSN List of Title Word Abbreviations** (www.issn.org/2-22661-LTWA-online.php). Please include DOI links for journal papers. The following examples are for guidance.

Journal:

Saharjo BH, Nurhayati AD. 2006. Domination and composition structure change at hemic peat natural regeneration following burning; a case study in Pelalawan, Riau Province. *Biodiversitas* 7: 154-158. DOI: 10.13057/biodiv/d070213.

The usage of "et al." in long author lists will also be accepted:

Smith J, Jones M Jr, Houghton L et al. 1999. Future of health insurance. *N Engl J Med* 965: 325-329. DOI: 10.1007/s002149800025.

BIODIVERSITAS

Journal of Biological Diversity
Volume 26 - Number 1 - January 2025

Nucleotide sequence diversities of Chitinase and PR1 genes from <i>Theobroma cacao</i> cv. MCC 02 and Sulawesi 1	1-13
AAN SETIOWATI, SINTHO WAHYUNING ARDIE, TRI JOKO SANTOSO, SUDARSONO	
Beak morphometrics and line analysis for accurate sex determination in juvenile Lovebird (<i>Agapornis fischeri</i>)	14-21
YENI DHAMAYANTI, ZALFA HIFNIE WAHYUNITA, FEDIK ABDUL RANTAM, MASLICAH MAFRUCHATI, HANA ELIYANI, SOEHARSONO, GRACIA ANGELINA HENDARTI, TANTRI DYAH WHIDI PALUPI, KURNIA NISA KINASIH, ZULFI NUR AMRINA ROSYADA, AISYAH NIKMATUZ ZAHRO, SALIPUDIN TASIL MASLAMAMA, MUHAMMAD THOHAWI ELZIYAD PURNAMA	
Identification of subterranean termites and their attack characteristics on settlements in Jakarta Province, Indonesia	22-35
ARINANA ARINANA, FIRMAN ARDIANSYAH, RIKI ANDIKA, DIDI TARMADI, SATIMO	
Identification of the nettle caterpillar in smallholding oil palm plantation cultivated on peatland in Ogan Ilir, South Sumatra, Indonesia	36-45
ERISE ANGGRAINI, TIYAS SETIAWATI, SITI HERLINDA, CHANDRA IRSAN, MULAWARMAN, NUNI GOFAR, A MUSLIM, WEI HONG LAU	
Development and validation of novel microsatellite markers of a potentially invasive fern <i>Dicranopteris linearis</i> var. <i>linearis</i>	46-54
NURSHANARIAH BALKIS KAMARUDIN, MUSABBIAH ABDUL AZIZ, AHMAD SOFIMAN OTHMAN, RUSLY ROSAZLINA	
Phytochemical screening and GC-MS analysis of local durian (<i>Durio zibethinus</i>) leaf extract from Criwik, Rembang, Central Java, Indonesia	55-61
ANDINI DESI SAWITRI, ENDANG YUNIASTUTI, EDI PURWANTO, PARJANTO	
Comprehensive assessment of <i>Terebralia palustris</i> populations in the Sayeung Calang River ecosystem, Aceh Jaya, Indonesia	62-72
MUHAMMAD FAUZAN ISMA, SLAMET B. PRAYITNO, HAERUDDIN, MAX R. MUSKANANFOLA	
Enhancing sustainable livestock support through <i>Kaliwo</i> agroforestry in Southwest Sumba District, Indonesia	73-84
WILHELMUS YAPE KII, AKHMAD SODIQ, JUNI SUMARMONO, NOVIE ANDRI SETIANTO, ZAINAL A. JELAN	
Potential probiotic characteristics of <i>Bacillus</i> sp. originated from intensive snakehead fish (<i>Channa striata</i>) raising ponds in Vinh Long Province, Vietnam	85-93
NGUYEN TRI YEN CHI, NGUYEN LU KHOI MINH, QUACH VAN CAO THI	
Traditional treatments for treating <i>lengkauk</i> disease employed by the community in the Segedong Sub-district, Mempawah District, West Kalimantan Province, Indonesia	94-101
RUQIAH GANDA PUTRI PANJAITAN, DESTI RAHMADANI, HAYATUL FAJRI, DIAN AKBARINI, ZHU CAIPING	
The anatomy, histology, and oxidative stress level of the liver in fruit bat (<i>Rousettus</i> sp.)	102-110
YENI DHAMAYANTI, MUHAMMAD SURYADININGRAT, AGUNG MUJIBURRAHMAN, LINTANG WINANTYA FIRDAUSY, SALIPUDIN TASIL MASLAMAMA, MUHAMMAD THOHAWI ELZIYAD PURNAMA	
Identification and production of indole-acetic acid by bacteria isolated from eco-enzymes	111-117
V. IRENE MEITINIARTI, SRI KASMIYATI, EZRA, RULLY ADI NUGROHO, AGNA S. KRAVE	

Phytochemical analysis and antioxidant activity of <i>Araucaria</i> spp. from Taman Bunga Nusantara, Cianjur, West Java, Indonesia	118-125
PURWANTININGSIH SUGITA, MIRA NUR USTATI, KURNIAWANTI, GUSTINI SYAHBIRIN, HANHAN DIANHAR, DYAH UTAMI CAHYANING RAHAYU	
Enhanced mycorrhiza helper bacterial inoculant for improving the health of Arabica coffee seedlings grown in nematode-infected soil	126-133
REGINAWANTI HINDERSAH, IIS NUR ASYIAH, WIDI AMARIA, BETTY NATALIE FITRIATIN, IMAM MUDAKIR, SAON BANERJEE	
Selection and validation of stable reference genes for RT-qPCR analysis across seven <i>Musa</i> genomes during early flowering development	134-144
KAWEE SUJIPULI, YONLADA MINGMANIT, PHITHAK INTHEMA, SRISANGWAN LAYWISADKUL, KUMROP RATANASUT, DUANGPORN PREMJET, SIRIPONG PREMJET, PONGSANAT PONGCHAROEN, WANWARANG PATHAICHINDACHOTE, MAHATTANEE PHINYO, THANITA BOONSRANGSOM	
Composition and role of ants (Formicidae) as indicators of habitat conditions in different stands in urban forest, Makassar, South Sulawesi, Indonesia	145-152
BUDIAMAN, SITTI NURAENI, NURHAINI, ANDI PRASTIYO	
Fish diversity and associated physicochemical conditions in seaweed farming areas in Bone Gulf Waters, South Sulawesi, Indonesia	153-165
FIJWAL PATANGNGARI, MUSBIR MUSBIR, NAJAMUDDIN	
Isolation and potential evaluation of organophosphate-indigenous degrading fungi from Singolangu Farmland, Magetan, Indonesia	166-177
PUJIATI, HERTANTI, R. BEKTI KISWARDIANTA, FATIMAH, RICO RAMADHAN, NI'MATUZHROH	
Spatial and temporal distribution of macrobenthic polychaetes (Animalia: Annelida) comparing mangrove forest and aquaculture zone at Karimunjawa Island, Jepara District, Indonesia	178-189
SAPTO PURNOMO PUTRO, ALWI SIHAB, RIZKI SANDHI TITISARI, LEVINA A. ANARIZTA, GASSAN HODAIFA	
A optimization and molecular identification of PUA- bacterial isolate from protease-producing mangrove waters	190-198
FESKAHARNY ALAMSJAH, YORASAKHI ANANTA, ANTHONI AGUSTIEN	
Antibacterial activity of phyllospheric bacteria isolated from <i>Rhizophora mucronata</i> against <i>Escherichia coli</i> and <i>Bacillus subtilis</i>	199-211
DEBIE RIZQOH, SILVA DWI YOLANDA, ENNY NUGRAHENI, SIPRIYADI, MELLYTA ULIYANDARI, RIZKY HADI WIBOWO, OKTOVIANI, ELLEN MAIDIA DJATMIKO, ANNISA AMELIA PUTRI	
Exploring habitat characteristics and herpetofauna diversity in the Kamojang and Darajat geothermal power plants, West Java, Indonesia	212-230
ERRI NOVIAR MEGANTARA, TEGUH HUSODO, ASEP ZAINAL MUTAQIN, DWI RUSTAM KENDARTO, INDRI WULANDARI, M PAHLA PUJIANTO, SYA SYA SHANIDA, FEMI AFRIYANTI	
The study of diversity and distribution of bats in several fragmented forests and small adjacent islands in Batam City, Riau Island, Indonesia	231-240
FAUZIAH SYAMSI, WILSON NOVARINO, DAHELMI, CHAIRUL	
Water quality and plankton diversity to support aquaculture in the middle Mahakam Watershed, East Kalimantan, Indonesia	241-253
HENNY PAGORAY, IWAN SUYATNA, KOMSANAH SUKARTI, ARIF DATA KESUMA, TUNGGUL BUTAR BUTAR, MUHAMMAD RAAFI, MUHAMMAD BAGJA BRITANIA SUYATNA, TAUFAN PURWOKUSUMANING DARU	

Comparative study on karyotypes of three <i>Mastacembelus</i> species (Synbranchiformes: Mastacembelidae) from Thailand	254-262
WATCHARIN SEREE, WEERAYUTH SUPIWONG, GETLEKLA NUNTAPORN, SUKHONTHIP DITCHAROEN, NATTHASUDA DONBUNDIT KRIENGKRAI SEETAPAN, SAMPAN TONGNUNUI, SITTHISAK JUNTHARAT, ALONGKLOD TANOMTONG	
Density and distribution mapping of invasive plant <i>Jatropha gossypifolia</i> in priority savanna of Bama Resort, Baluran National Park, East Java, Indonesia	263-272
SOLFIYENI, ADINDA NURMALASARI	
A comparison of diversity and catch composition of mini trawl (<i>arad</i>) and lift net (<i>bagan</i>) in Cilincing, Jakarta Bay, Indonesia	273-285
TRI DEWI KUSUMANINGRUM PRIBADI, ROZA YUSFIANDAYANI, DOMU SIMBOLON, MERCY PATANDA, RACHMAD CAESARIO, ELNOSAN JEMBAR SAYIDINA, SUSANTI RAHAYU VIOLITA	
Diversity of <i>Ceratocystis fimbriata</i> causing canker and wilt disease on <i>Cupressus sempervirens</i> (Italian cypress) in Indonesia	286-295
RAHMAT PRATAMA, SUWANDI SUWANDI, AHMAD MUSLIM, MULAWARMAN	
Teliospore morphology characterization of <i>Uromycladium falcatariae</i> in falcata plantations at different elevations in Mindanao Island, Philippines	296-305
MHAR O. LOQUEZ, CAROLINA D. AMPER, ADRIAN M.TULOD, DENNIS M. GILBERO	
Morphological and ultrastructure alteration of larva <i>Culex pipiens</i> exposed from cassava juice extract	306-314
MARIA NINDATU, HERY JOTLELY, YOFIAN ANAKTOTOTY, MILDA RIANTY LAKOAN	
Ethnobotany of medicinal plants by the community in Langgudu Sub-district, Bima District, West Nusa Tenggara, Indonesia	315-325
HARDIMAN ALBAR, JUHRIAH, SLAMET SANTOSA	
Peat-derived <i>Streptomyces</i> spp. isolated from edamame rhizosphere with plant growth-promoting properties	326-334
IRA ERDIANDINI, ARIS TJAHJOLEKSONO, RIKA INDRI ASTUTI, EDI HUSEN, ARIS TRI WAHYUDI	
Effect of probiotic yeast <i>Pichia kudriavzevii</i> P0 and mannan-oligosaccharide on the intestine health of rat infected with <i>Salmonella</i> Typhimurium	335-344
RAHAYU WULAN, RIKA INDRI ASTUTI, YAYA RUKAYADI, SRI ESTUNINGSIH, ANJA MERYANDINI	
Gut microbiome profile of <i>Namalycastis</i> sp. at Setiu wetland in Terengganu, Malaysia	345-355
SHUMPEI IEHATA, SITI RABAAH HAMZAH, SITI SYAZWANI AZMI, YUSOF SHUAIB IBRAHIM	
eDNA metabarcoding in mangrove ecosystems for fish conservation and stock assessment of <i>Sardinops sagax melanostictus</i> in the Philippines	356-365
TRICKSIE P. BALATERO, ZILJIH MOLINA, RODELYN M. DALAYAP, RANDE DECHAVEZ, JANECE JEAN MANUBAG, NANETTE HOPE SUMAYA, JUSUA DELA PEÑA, SHARON ROSE M. TABUGO,	
Exploration of bioactive compounds in invasive plant <i>Spathodea campanulata</i> flower originating from Bukit Barisan National Park, Lampung, Indonesia	366-376
DURYAT, RAFLI INDRA GHOZALI, YOPPIE JORDAN SARAGIH, RODIANI, TRI MARYONO, CITRA YULIYANDA PARDILAWATI, ISMANTO	
Exploring the diversity of cellulolytic microorganisms from tea factory waste and evaluating their potential in breaking down tea waste	377-385
MARIANI SEMBIRING, MUKHLIS, RAZALI, BENNY HIDAYAT	
DNA barcoding of <i>Mugilogobius mertoni</i> and <i>M. rambaiae</i> from Siberut and Enggano Islands, the small outermost islands of Sumatra, Indonesia	386-395
DEWI IMELDA ROESMA, DJONG HON TJONG, SYAIFULLAH, DYTA RABBANI AIDIL	

Variability of yield and yield components of hybrid cayenne pepper (<i>Capsicum frutescens</i>) genotypes under shaded and unshaded conditions	396-406
DEKA ROSALINDA MAULIDYA PUTRI, MUHAMAD SYUKUR, ARYA WIDURA RITONGA	
Comparative micromorphology of <i>Costus pictus</i> and <i>Hellenia speciosa</i> collected from Vietnam	407-417
NGUYEN THANH TRIET, TRAN VAN CHEN, DUONG NGUYEN XUAN LAM, NGUYEN THI THU HIEN, NGUYEN THI NGA, TRAN THI THUY QUYNH	
Evaluation of the effects of <i>Glycyrrhiza glabra</i> and <i>Syzygium aromaticum</i> extracts on gene expression of <i>Streptococcus mutans</i> in patient with dental caries	418-423
MAREH L. AL-AMILI, KAMIL M. AL-JOBORI	
Development of lectin gene-based SNAP and ARMS markers as anticancer biomarkers in mutant rodent tuber (<i>Typhonium flagelliforme</i>) of Pekalongan accession, Indonesia	424-433
ZIDNI MUFLIKHATI, NESTI F. SIANIPAR, REFLINUR, ANAS	
Metabolite profiles and biomarkers of three <i>Selaginella</i> (Selaginellaceae) medicinal plant species in Java Island, Indonesia	434-443
AMANDA KHOIRUNISA, TATIK CHIKMAWATI, GIRI NUGROHO, MIFTAHUDIN	
Elucidating hard coral community in tropical coral reefs of Pulau Bidong and Nearby Islands, South China Sea	444-457
MOHMAD FUAD NUR QAMARINA, WEE HIN BOO, YU HAI PING, ZAINUDIN BACHOK, CHE DIN MOHD SAFUAN	
Botanical survey of ethnomedicines in Dayak sub-ethnic groups, Ot Danum and Tomum in Central Kalimantan, Indonesia	458-469
LISWARA NENENG, NAWAN, FRANS GROVY NAIBAHU, SUDARMAN RAHMAN, LIA SEPTYA, DESIMARIA PANJAITAN, RIA WINDI LESTARI, ARIFIN SURYA DWIPA IRSYAM, NORWAHYUNIE, NORAINI	
Floristic composition and carbon sequestration of traditional agroforestry on peatland in Rimbo Panjang, Kampar, Riau, Indonesia	470-479
MAYTA NOVALIZA ISDA, SITI FATONAH, YULMINARTI, NUR ZARAH OKTARINA, DEWI INDRIYANI ROSLIM	
Two new records of <i>Boesenbergia Kuntze</i> (Zingiberaceae: Zingibereae) for the Flora of Myanmar	480-489
PIYAPORN SAENSOUK, SURAPON SAENSOUK, THAWATPHONG BOONMA, WIN PAING OO, NYI MIN HTET, CHARUN MAKNOI, BHANUBONG BONGCHEEWIN, NYI NYI HTWAY, HEIN MYAT MINN	
Comparison of rhizobacteria communities between secondary forest and palm oil plantations in East Kalimantan, Indonesia	490-499
ERVINDA YULIATIN, NOVA HARIANI, BODHI DHARMA, FATMAWATI PATANG, BUDIMAN,	
Phytochemical analysis and antioxidant activity from <i>Phanera semibifida</i> stem and leaves extracts using LC-MS/MS	500-508
MEYLA SUHENDRA, BERRY JULIANDI, HUDA SHALAHUDIN DARUSMAN, SITI SADIHAH, FITMAWATI, SRI BUDIARTI, PUJI RIANI,	
Abundance of adult <i>Aedes aegypti</i> and <i>Aedes albopictus</i> (Diptera: Culicidae) across six settlements in South Sulawesi, Indonesia	509-519
FADLY RIAN SAPUTRA, ISRA WAHID, SUPRIYONO, UPIK KESUMAWATI HADI
